

# Shoreline Access and Marine Managed Areas of Oahu

## Easement vs Dedicated Access

The easements are public easements over private property for access to the shoreline, whereas the dedicated access is usually a public right of way (ROW) or beach park owned and maintained by the city and county of Honolulu.

## Marine Managed Areas of Hawaii

This map includes bottomfish (BF) Restricted Fishing Areas (RFAs), military closed areas (both partial and full time closures), Marine Reserves, Marine Life Conservation Districts (MLCDs), Fishery Management Areas (FMAs), areas closed to aquarium fish collecting, and Wildlife Preserves. Produced by Robert O'Conner, NOAA Fisheries, November, 2006.
